

## Adventures of Koloa Plantation

It is the sweetest story in the islands when Sugar reigned as King and the small town of Koloa was its Kingdom. Even Koloa's Hawaiian name, "ko" meaning sugar and "loa" meaning long, reflect this bygone era to perfection. In its heyday, sugar was indeed the ruling force and its benefits were treasured. With the sweet influence of the plantation, the labor need grew in leaps and bounds, even faster than the sugarcane itself and Koloa recruited help from around the world. The fun begins as you experience life at the Koloa Plantation by mingling amid the various ethnic "camps" that made living an adventure. The Japanese, Portuguese, Filipino and Hawaiian "camps" feature a distinctive flavor in food, music and activities. Taste the flavor! Experience the cuisine! Live the excitement! Challenge both your taste buds and your mind in an authentic palate pleaser! This is truly the "sweet" life!
